COURSE & LEARNING OBJECTIVES

Our Foundation Level Change Management course, developed in collaboration with the Change Management Institute (Australia) and APMG, is designed to help organizations and their teams **manage the impact of change**.

You will become familiar with various techniques and models to **effectively plan and implement successful transformation initiatives**. The structured approach provides tools for dealing with (organizational) change as an individual, as a member of a team or organization, and as a manager.

A 3-day training to:

- Understand the **key drivers** to increase the likelihood of successful change or organizational transformation in your company.
- Learn how to **minimize risk** by developing a unified approach to **dealing with change**, from the individual to the corporate level, by implementing certified best practices in change management.
- Improve **change impact assessment**, change planning, and successful implementation of change in the life of the organization.
- Be a highly effective manager of change, transition or organizational transformation.
- Understand how people are affected by change, the different ways in which they can **react to change situations** and how learning processes can help them to adapt.
- At the end of this course, you will be able to **understand change** and the individual, change and the organization, stakeholder engagement and communication, and good practice in change.
- Be ready to **take the Change Management Foundation exam**.
