WHY GET CAPM ® CERTIFICATION?

CAPM ® certification proves that its holder has mastered the PMI ® reference framework, and is therefore able to speak the same language as other CAPM ® certified project managers, and that their methodologies will be identical. There are already almost one hundred thousand CAPM ® certified project managers in the world.

The guiding principle of this online training course is **interactivity**. Participants are deeply involved and have to work on numerous exercises, the best way **to acquire experience and know-how**.

COURSE OBJECTIVES

- Pass the CAPM certification, Project Management Professional
- Be familiar with the 4 areas of project management.
- Be familiar with the Exam Content Outline (CAPM) of project management.
- Master the PMI framework: the processes, management areas and techniques that guarantee the success of projects.

COURSE CONTENT

The first part of this course covers the 4 areas of project management:

- Project management fundamentals and core concepts
- Predictive, plan-based methodologies
- Agile frameworks and methodologies
- Business analysis frameworks
