 - Learn to establish and implement a crisis management plan
- Includes the certification and examination fees and extensive training materials
- Each learner will receive a course completion certificate with 31 CDP credits
 - B2B Learning is a [PECB Authorized Partner](#)

COURSE OBJECTIVES

The Lead Crisis Manager training is designed to help participants develop solid expertise in the implementation and maintenance of a strategic crisis management capability. Based on ISO 22361 guidelines, this training offers a combination of theory and best practices, ensuring that the organisation is prepared to anticipate, respond to and recover from various crises. Aimed primarily those responsible for setting up a crisis management capability, crisis leaders, and those seeking to deepen their knowledge of crisis management, this course offers a learner-centred educational approach.

Participants will benefit from practical examples, interactive discussions and quizzes to strengthen their skills. At the end of the training, certification is available for those who pass the exam, certifying their competence in this crucial area. It is recommended that participants have a basic understanding of crisis management concepts before attending this training.

Key Learning Objectives

- Explain the fundamental concepts and principles of crisis management based on ISO 22361.
- Establish, maintain and continually improve a crisis management framework that includes leadership, structure, culture and competence.
- Anticipate, assess, prevent and prepare for crises.
- React, recover and learn from crises in order to improve an organisation's crisis management capacity.
