NIS 2 Directive Lead Implementer | PECB Certified

4 Days (28 Hours) + online exam

The Certified NIS 2 Directive Lead Implementer training course enables participants to gain the necessary competencies to support organizations in effectively planning, implementing, managing, monitoring, and maintaining a cybersecurity program that meets the requirements of the NIS 2 Directive.

Your training includes:

• Official NIS2 Lead Implementer course material in English, in digital format

• Quizzes and mock exams for optimum preparation for certification

• Exam voucher with a second attempt if required

• Lunches and coffee breaks to encourage discussion and networking

NIS 2 Directive Lead Implementer

The NIS 2 Directive Lead Implementer training course is vital for building and maintaining digital trust in critical infrastructure sectors. By helping organizations strengthen their cybersecurity measures and comply with NIS 2 Directive requirements, this training course ensures that essential services like energy, healthcare, transport, and digital services remain resilient against cyber-attacks. Attaining the PECB Certified NIS 2 Directive Lead Implementer credential demonstrates expertise in managing the security of vital systems.

Training objectives

Participants will acquire a thorough comprehension of the principles, strategies, methodologies and tools they need to implement and manage a cybersecurity program. They will also learn to interpret and implement the NIS 2 Directive requirements in the specific context of their organization.

A 4-day NIS2 Directive Lead Implementer training course to:

- **Strengthen Cybersecurity Posture**: Gain in-depth knowledge of the NIS 2 Directive to protect critical infrastructure sectors like energy, healthcare, and digital services.
- **Comprehensive Training**: Learn to assess cybersecurity risks, develop incident response plans, and implement effective security measures.
- **Hands-On Learning**: Participate in interactive sessions and practical exercises to apply NIS 2 Directive requirements effectively.
- **Industry Insights**: Stay updated on evolving threats, industry standards, and cutting-edge cybersecurity solutions.
- **Become a Trusted Expert**: Achieve recognition as a cybersecurity professional equipped to enhance organizational and societal resilience.

This training alternates theoretical presentations, practical exercises based on case studies, quizzes and discussions to promote understanding and success in certification.

Training program

Day 1: Introduction to NIS 2 Directive and initiation of the NIS 2 Directive implementation

Day 2: Analysis of NIS 2 Directive compliance program, asset management, and risk management

Day 3: Cybersecurity controls, incident management, and crisis management

Day 4: Communication, testing, monitoring, and continual improvement in cybersecurity

Online at home: Certification exam (duration 3 hours)

Who should attend?

This training course is intended for:

- Cybersecurity professional seeking to gain a thorough understanding of the requirements of NIS 2 Directive and learn practical strategies to implement robust cybersecurity measures
- IT managers and professionals aiming to gain insights on implementing secure systems and improve the resilience of critical systems
- Government and regulatory officials responsible for enforcing the NIS 2 Directive

Prerequisites

The main requirements for participating in this training course are having a fundamental understanding of cybersecurity.

Exam information

The NIS 2 Directive Lead Implementer course is linked with an exam. During the course, quizzes and mock exams will be offered to familiarize you with the exam format.

- Exam length: 3 hours (60 minutes)
- Format: 80 Multiple-choice questions (MCQs)
- Pass mark: 70% correct answers
- Language: Available in several languages, including English and French

After successfully completing the exam, participants can apply at PECB for one of the credentials, in function of your professional experience and NIS 2 project experience.

Candidates who have completed the training course but failed the exam are **eligible to retake the exam once for free** within a 12-month period from the initial date of the exam.

Course materials

Each participant receives access to the official course material, which includes :

- NIS 2 Directive training manual
- Practical exercises and case studies
- Quizzes and mock exams

This course is also available on an in-company basis. [Contact us to receive your personalised offer](#).
