

IREB® Foundation eLearning

90 days access | flexible online course | IREB CPRE Foundation Level exam included

Get Your IREB CPRE Foundation Level Certification at Your Own Pace!

Gain the essential skills and knowledge to **understand and manage requirements engineering** based on international standards and best practices. This eLearning course is designed to meet the needs of diverse learners, allowing you to study at your own pace with access to learning materials anytime, anywhere.

- The course includes video tutorials, study guides, and interactive quizzes
- The price includes certification exam fees and training materials
- Flexible 24/7 access to the learning platform for 90 days
- A comprehensive course developed by experienced and accredited IREB CPRE tutors
- Interactive training with practical exercises and mock exams to prepare you for success
- Online tutor support via email, with experienced CPRE-certified trainers available to answer your questions (working hours)

COURSE & LEARNING OBJECTIVES

Learn at Your Own Pace with Our IREB-Accredited Training

The **IREB CPRE Foundation Level eLearning course** equips you with the essential knowledge and practical skills in requirements engineering, based on international standards and best practices. By the end of the course, you will be ready to understand, document, manage, and analyze requirements effectively and pass the **Certified Professional for Requirements Engineering (CPRE) Foundation Level** exam.

Learning Objectives

- Understand the fundamental concepts and principles of requirements engineering.
- Use common terminology and standards in the field of requirements engineering.
- Identify and analyze factors influencing requirements.
- Apply various techniques for eliciting requirements.
- Document requirements clearly and effectively.
- Manage requirements throughout the project lifecycle.
- Select and implement appropriate tools to support requirements engineering.
- Be fully prepared to pass the **IREB CPRE Foundation Level certification exam** and demonstrate your competence in requirements engineering.

Course Content

- **Introduction to Requirements Engineering** and its significance in software and systems projects
- **Key concepts and terminology** in requirements engineering
- **Techniques for requirements elicitation**, including interviews, workshops, and observation
- **Requirements documentation methods** and best practices
- **Managing requirements** throughout the project lifecycle
- **Assessing and improving requirements quality**
- **Tools and approaches** to support requirements engineering processes
- **Practice exams and mock tests** to ensure exam readiness

Who Should Attend?

This self-paced eLearning course is ideal for:

- **Requirements engineers**, business analysts, information analysts, and functional designers looking to advance their careers and gain an internationally recognized certification.
- **Architects, developers, designers, and users** involved in specifying information systems or software products.
- **System testers and acceptance testers** involved in evaluating the testability of requirement documents.
- **Quality managers and project managers** interested in understanding the principles of requirements engineering.

Prerequisites

No specific prior knowledge or training is required. However, a basic understanding of software development and project management can be beneficial.

About the IREB CPRE Foundation Level Exam

- **Exam format:** Multiple-choice, closed book
- **Duration:** 75 minutes (+15 minutes for non-native English speakers)
- **Number of questions:** 45
- **Passing score:** 70% or higher (at least 32 correct answers)
- **Delivery:** Online exam voucher included (valid for one year)

Course Delivery & Access

- **Access period:** 90 days of flexible online learning
- **Mode:** 100% online, with interactive quizzes, exercises, and real-life examples
- **Support:** Email assistance from experienced and accredited IREB CPRE tutors throughout the learning period
- **Resources:** Automated practice exams with explanations and references for additional study

How to Access the Course

Once your order is confirmed, you will receive a welcome email within **2 business days** with all the details to access your course. The course and exam are delivered entirely online, accessible through any device (computer, tablet, or smartphone) with a reliable internet connection.
