

OCUP2 UML 2.5 Foundation

3 Days (21 Hours) Exam included

UML® (Unified Modeling Language) is the most popular graphical language used by software analysts, designers, and developers to model, visualize, communicate, test, and document systems under development.

The Unified Modeling Language (UML) is a standard for modeling different aspects of software applications. The UML standard contains 13 different diagrams. In this course you get an overview of all 13 diagrams, and in which situation these different diagrams are used.

After attending our 3-day course, participants will have a good overview of the value and constraints of UML and will be ready to take the OCUP 2 Foundation Level Certification. Participants will have gained the knowledge and modeling skills needed to interpret UML models presented to them in their role as implementer or stakeholder of a project, or to be productive members of a team that builds or uses UML models in its analysis and design of a system (either new or existing) under study.

Exam voucher included : OMG-Certified Expert in UML 2 (OCUP 2).

COURSE & LEARNING OBJECTIVES

After completing this course you will:

- Have knowledge of the elements and diagrams of UML and the possibilities related to this notation
- Understand and use UML elements and diagrams in your projects that are documented under this notation
- Be prepared to work with the most commonly encountered UML elements
- Be able to create simple UML models
- Be prepared to pass the "OMG Certified UML Professional 2 Foundation" examination

ABOUT THE CERTIFICATION BODY

The OMG Certified Expert in Business Process Management (OCEB 2™) is a professional certification program developed by the Object Management Group (OMG). OMG is an independent organization known as the standardization body developing programs in the areas of Business Process Management and Business Process Modeling. There are three exam levels: Foundation, Intermediate, and Advanced.

WHO SHOULD ATTEND?

Everyone who uses UML - UML model users/readers and UML model builders - will benefit from OCUP 2 certification. Typical roles include: Developers, programmers, business analysts, project managers, software architects, testers, people responsible for documentation or anyone involved in the software development process.

PREREQUISITES

A good knowledge of any object-oriented language or basic UML knowledge is required.

EXAM VOUCHER INCLUDED: OMG-CERTIFIED EXPERT IN UML 2 (OCUP 2).

Exam voucher included : delegates attending our training will receive a voucher to pass their test in a Pearson VUE Testing Center.

The OCUP 2 Fundamental Exam includes 90 multiple-choice questions. You have 120 minutes to complete the exam. The questions are all in English. If English is not your native language, you will be granted an extra 30 minutes. To pass, you need to answer at least 60 out of 90 questions correctly.

If you fail the test, you must wait at least 30 days to repeat the exam. A maximum of 3 attempts is permitted within 12 months.

COURSE MATERIAL

Participants will receive a binder with the presentation and additional material and documentation. You will also receive a copy of the book "OCUP 2 Certification Guide: Preparing for the OMG Certified UML 2.5 Professional 2 Foundation Exam". All documentation is in English.
