COURSE & LEARNING OBJECTIVES

COBIT® 2019 is a leading framework for the governance and management of enterprise information and technology, supporting organizations in achieving their goals. This intensive 2-day course (3 days for sessions in French in Paris or live virtual) delves into the core concepts, principles, and models of the COBIT framework, equipping you with the knowledge to excel in the COBIT 2019 Foundation Exam.

At the end of this course, attendees will be able to:

- Recognize the context, benefits, and key reasons for using COBIT as an IT governance framework.
- Understand the alignment of COBIT with other frameworks, standards, and bodies of knowledge.
- Describe the components of a governance system and the principles of a governance framework.
- Differentiate between governance and management objectives.
- Design tailored governance systems using COBIT principles.
- Prepare effectively for the COBIT 2019 Foundation exam.
