COBIT® 5 Foundation eLearning

Duration: 16 hours study time / 90-day access / exam voucher included

About this COBIT® 5 eLearning Course

Become a COBIT 5 Foundation Certified Professional

The COBIT® 5 Foundation eLearning course is an online, self-paced interactive training course. Participants learn about the need for an IT governance framework, and how COBIT addresses this need by providing the latest insights into enterprise-wide governance of IT.

This course explains the elements and supporting materials of the COBIT framework, using a logical and example-driven approach for anyone interested in obtaining COBIT foundation level knowledge. COBIT 5 Foundation is the first step, and a prerequisite, to enrolling into the advanced level courses.

Participants will receive a COBIT 5 Foundation exam voucher.

COURSE & LEARNING OBJECTIVES

At the end of this training, participants will understand:

- Key challenges of using IT
- IT governance concepts and benefits
- COBIT 5 framework, principles, and enablers
- Relationship between stakeholder needs and governance
- Implementation approach for the use of COBIT 5
- Structure of COBIT 5 process reference model
- Governance and management domains
- Components of COBIT 5 processes
- Need for capability assessments
- COBIT 5 ISO/IEC 15504 approach
- Application of COBIT 4 maturity model approach with COBIT 5
- Other COBIT 5 enablers for IT governance and management
