WHO SHOULD ATTEND?

This course is aimed at anyone working in a project management environment who wants to :

- Deepen their knowledge of PMI® best practice in project management
- Obtain the PMP® certification

PRE-REQUISITES

There are no strict pre-requisites for taking the course. However, some experience of project management is recommended. For sessions in English, a good knowledge of the language is essential.

To be eligible to sit the PMP exam, participants must have 3 to 5 years' experience in project management and a knowledge of the basic principles of project management.

If you are not eligible to take the PMP exam, you can start your certification journey with the CAPM exam.

You can check the requirements on the PMI Exam Requirements page.

PMP® EXAM INSIGHTS

The PMP examination voucher is included in the price of the course.

For the PMP® exam, you need to submit an **eligibility application** on the PMI® website. Once your application has been accepted, you can sit your exam online. This process, although simple, must be carried out with care. It is based on your professional experience: at **least 3 years' experience** in project management is recommended to maximise your chances of acceptance.

During the training course, our trainer will explain the rules and specifications of the exam in detail. But you can already familiarise yourself with the specifics and requirements of the exam by visiting the page:

PMI PMP Certification Information

Details of the PMP® exam :

- 180 multiple-choice questions (MCQs, multiple-response questions, graphical questions, etc.)
- Duration: 230 minutes with two 10-minute breaks after 60 questions have been validated

If you do not meet PMI's requirements to take the PMP exam, you can attend this training course and take the first level of PMI certification, the CAPM.
