

**M\_o\_R® (Management of Risk) provides a framework for risk management** considering the different aspects of an organisation: strategic, programme & project based and operational. It helps organisations to make responsible decisions about risks.

It is a guideline for Integrated Risk Management that ensures that an organisation uses a risk management process with several clearly defined steps in a **cost-effective** way. The aim is to support better decision-making through a clear understanding of the risks and their likely impact.

Our **2-day M\_o\_R Foundation course** aims to provide participants with a thorough understanding of the Management of Risk. After completing the course, participants will be able to apply all parts of the M\_o\_R Guidance to **real life situations**.

## COURSE & LEARNING OBJECTIVES

At the end of this training, participants:

- understand the core concepts of M\_o\_R
- can put the risk management process into practice
- can relate strategic, project, programme and operational risk management together
- will have a better grip on uncertainty and the chances of success
- will be able to identify the success and failure factors of risk management and the benefits of M\_o\_R for your organisation

During the course, participants will do exercises through different assignments and will be invited to complete self-evaluation diagrams, etc.

## COURSE OUTLINE

- General introduction to the M\_o\_R Framework
- The M\_o\_R principles with different perspectives:
  - Strategic;
  - Programme;
  - Project
  - Operational
- The M\_o\_R approach
  - Risk management policy
  - Risk management process
  - Risk management strategy
- The risk and issue registers
- The plans and reports
- The M\_o\_R process steps
- The relevant techniques

Homework: practice foundation exam and personal risk register (2-3 hours)

- The risk management strategy document
- The issue register
- The M\_o\_R process steps
- The relevant techniques

Homework before taking the exam: reviewing the course, practice foundation exam and personal risk register (6 hours)

You will receive a voucher to take your online proctored exam at a date and time of your choice. The trainer will help you in this process and explain the procedure in detail.

## WHO SHOULD ATTEND ?

---

- Corporate managers - with interest in risk management as a control for good governance
- Programme or project managers
- Operations managers - responsible for managing risks that affect the continuity of your business
- Quality managers, safety experts, auditors, controllers or chartered accountants

## COURSE MATERIAL

---

Participants receive the presentation, case study, exercises and sample exam papers, as well as the official Management of Risk manual (digital or paper-bases in function of the chosen option).

## ABOUT THE EXAMINATION

---

The M\_o\_R Foundation Certification is suitable for those who want to prove they have sufficient knowledge and understanding of the M\_o\_R framework. It is also a pre-requisite for the Practitioner level.

Participants will receive an **Online Proctored Exam voucher** allowing them to **take their certification exam remotely, anytime, anywhere**. A computer, webcam and internet connection are all you need to take the exam. This voucher is valid 1 year, however, we strongly advice that candidates take their exam within 2 weeks after the training.

- Exam duration: 60 minutes (+ additional time for non-native English speakers)
- Closed book exam
- 35 out of 70 marks or 50% to pass
- Exam available in English or Dutch
